

TEST LETTER FOR ARTEMIS

2/3/24

Dear Hiring Team at Oracle Cloud Infrastructure,

I am writing to express my strong interest in the Software Engineer position within the newly formed Infrastructure Delivery Engineering organization at OCI. As a recent Computer Science graduate and a Junior Software Engineer at Onramp Funds, I am excited about the opportunity to contribute to the innovative and challenging projects that OCI offers.

What particularly draws me to this role is the emphasis on building and maintaining highly available and scalable services for managing physical assets throughout their lifecycle. My background in software development and exposure to diverse projects at Onramp Funds, combined with my dedication to customer satisfaction from years of service industry jobs during school, uniquely position me to contribute effectively to the OCI team.

During my tenure at Onramp Funds, I gained valuable experience in software development, primarily using Ruby on Rails, PostgreSQL, and JavaScript. I was actively involved in the entire product life cycle, from conception to delivery, which aligns with the expectations outlined in your job description. Moreover, my ability to work with a team and deliver products from the ground up has been a consistent aspect of my professional journey.

My years of service industry jobs have honed my communication skills, making me adept at explaining technical concepts and ensuring that customer expectations are not just met but exceeded. The emphasis on customer obsession, communication skills, and a disciplined approach to engineering outlined in your job description resonates with my own values and experiences.

I am comfortable working in fluid and chaotic environments, and my experience at Onramp Funds, a startup environment, has provided me with the adaptability and resilience needed for such scenarios. I am passionate about technology and consistently strive for excellence, characteristics that align with OCI's commitment to high standards and continuous innovation.

I am excited about the prospect of contributing to OCI's mission of providing innovative cloud products to tackle global challenges. The greenfield development environment and autonomy to build and innovate freely resonate with my eagerness to contribute to groundbreaking projects.

Thank you for considering my application. I am enthusiastic about the opportunity to work with a team of passionate engineers at OCI, and I am confident that my skills, dedication, and adaptability make me a valuable candidate for this role. I look forward to the possibility of contributing to the success of OCI and growing my career in this challenging and dynamic environment.

Sincerely,
Aiden Escamilla
